

# Dicey differences

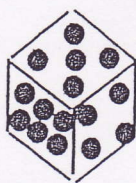

A game for any number of players  
You will need a dice, paper and pencil.

Player 1 rolls the dice  
The player scores the  
difference between the  
dice score and 10.

player 1 scores 6

Player 2 rolls the dice  
The player scores the  
difference between the  
dice score and 10.

player 2 scores 5

Play continues until either player has reached a total of 50 or more. The first to 50 is the winner.

Change the game by rolling 2 dice and finding the difference from 20.

Change the game by rolling 2 dice and multiplying the 2 numbers and finding the difference from 50.  
First to 200 is the winner.
