

# Dotty differences

ace to 9

A game for 2 or more players.  
Remove the 10s and picture cards.  
Deal 3 cards to each player.  
Use the 3 cards to make a number with 2  
decimal places e.g.

could be used to make **3.45**

Get your score by subtracting your decimal number from 10 (check with a calculator)

" I score  $10 - 3.45 = 6.55$ "

After each player has had their go place the cards in a discard pile and deal 3 new ones to each player.

The winner is the first to get a total of more than 20 points.
